

Moid Malik

SOFTWARE ENGINEER

PROFESSIONAL SUMMARY

I am a full-stack software engineer specializing in modern web development, with expertise in building scalable backend systems, high-performance, responsive frontends, and AI voice and chat agents. I am experienced in owning projects end-to-end, from architecture and development to deployment, and delivering production-ready applications.

SKILLS

Website Development:

- React Native, React, Next.js, Vue.js, Nuxt.js, TypeScript, JavaScript, Responsive/mobile-first design

AI Agents:

- Vapi, Pipecat, Livekit, Deepgram, Cartesia, Google AI APIs, OpenAI APIs

Backend:

- REST APIs, Express.js, Node.js

Databases:

- MongoDB, PostgreSQL

Tools:

- Git, Github

SELECTED PROJECTS

Sora:

- Built an AI voice receptionist for small businesses.
- Automated call handling, appointment booking, and customer inquiries.
- Integrated real-time speech recognition and LLM-powered conversations.

Arch Atlas:

- Built a production-ready e-commerce platform using Next.js, Node.js, and MongoDB.
- Implemented efficient state management for a highly interactive user experience.
- Developed scalable backend APIs and a responsive frontend.

EXPERIENCE

Maxim Agrotech - Software Engineer (2024-2026)

- Built a production-ready e-commerce platform using Next.js, Node.js, and MongoDB.
- Developed scalable backend systems, REST APIs, and AI-powered solutions.

CGH - Backend Developer (2021-2023)

- Built and integrated REST APIs with frontend applications, designed scalable database architecture, and developed robust backend systems.
-
